

Lewis, Rice & Fingersh

Knoll

Sector Focus: Legal

With over 150 attorneys practicing in all of its major legal specialty areas, Lewis, Rice & Fingersh, L.C. is one of the leading law firms in the Midwest. Established in 1909, the firm is proud to have served its communities for more than a century. When Lewis, Rice & Fingersh moved to the top six stories of 600 Washington, a renovated building in downtown St. Louis, it worked with design firm, Christner Inc., to find pieces that reflected a classic modern aesthetic. With their long-held commitment to the past, present and future of modern design, mid-century pieces from KnollStudio fulfill the firm's vision for lounge furniture that

reflects its enduring legacy. In the main reception area, Lewis, Rice & Fingersh selected iconic Florence Knoll and Barcelona Lounge Collection furniture (cover). MR seating and Four Seasons barstools by Mies van der Rohe (left), distinguished by their cantilevered chrome frames and meticulous craftsmanship, create an elegant focal point in the firm's lounge area. A perfectly proportioned Pfister sofa offers comfort and complements the bold geometry of the space. Barcelona seating in the firm's common space (right) unifies modern architecture with timeless design.
